## Literary Department.

*This Institution is situated in a pleasant and airy part of the city of St. Louis. It is the oldest Establishment of the kind in the State and has enjoyed uninterrupted prosperity from its beginning receiving an extensive patronage from the Western and Southern States and from the West Indies & Mexico. Its buildings have been enlarged and its plan of Studies extended so as to adapt the course of Study to all classes of the community; and it now offers advantages not surpassed by any Institution in the West.*

*The Mississippi and its tributaries and a system of Rail-roads diverging from the city in all directions offer every facility of Communication. The Scholastic Year Commences on the first Monday of August and ends about the 5<sup>th</sup> of July.*

# PROSPECTUS

OF THE

## St. Louis University, St. Louis, Mo.

---

This literary Institution, situated in an agreeable and airy part of the city of St. Louis, was founded in 1829 by members of the Society of Jesus, was incorporated by an act of the State Legislature in 1832 under the name and style of the "ST. LOUIS UNIVERSITY," and empowered to confer degrees and academical honors in all the learned professions, and generally to have and "enjoy all the powers, rights and privileges exercised by literary institutions of the same rank." It has experienced uninterrupted prosperity, and has progressively improved so as to offer advantages not surpassed in the West. Both river and railroad facilities of communication render it easy of access at all seasons of the year.

The Institution possesses a valuable Museum, which contains a great variety of specimens both of nature and of art, collected from various quarters of the globe, but especially from our own country; also a very beautiful and complete Philosophical and Chemical Apparatus. The Library belonging to the Institution numbers over 13,000 volumes, embracing almost every branch of literature and science, and containing many very rare and interesting works. The select libraries open to the students form a collection of over 3,000 volumes.

To improve the students in public speaking, debating societies have been organized and for years have been in very successful operation. To add solemnity to the celebration of religious, national and literary festivals, and to afford the qualified student the advantages of performing a part in concert music, the Philharmonic Society has been established.

## GENERAL REGULATIONS.

The Academic year consists of one session, beginning on the last Monday of August, and ending about the 5th of July, when the annual commencement, the conferring of degrees and the distribution of premiums take place. An examination of all the classes is made on the days immediately preceding: there is another general examination of all the classes in the month of February. Every month, the places or degrees of merit obtained by the student in the different classes are publicly read out, and honors are awarded to such as have been most distinguished for good conduct, diligence and proficiency.

On the completion of their philosophical studies, the degree of A.B. is conferred on all who, on examination, are found deserving of that distinction. The degree of A.M. is given to the alumni who have devoted two years to some literary pursuit after having received the degree of A.B. Other academical honors are granted to merit, and distinction in the learned professions.

No one will be admitted unless he bears a good moral character. Such as have left another institution will not be received without satisfactory testimonials.

Reports are sent two or three times a year to the parents or guardians of the students, to inform them of their conduct, health and proficiency.

Thursday is the general recreation day. On the first Thursday of every month, the students whose parents or guardians live in the city or vicinity are allowed to visit them; but they must return before night.

During the eight days' recess which begins on the 25th of December, all who can conveniently visit their parents are permitted to do so. No other absence is allowed during the course of the session.

An experienced physician daily visits the Institution. The greatest care and attention are bestowed on the sick.

The Professors are members of the Catholic Church; however, pupils of other denominations are admitted, provided they are willing, for the sake of order and uniformity, to attend the public exercises of religious worship.

Tuition for Day-scholars, per session of 10½ months ..... 40.00

Students in Chemistry and Natural Philosophy, for the use of the apparatus, pay \$10 per session.

Medicines and School Books are furnished, if parents desire it, at current prices.

Music, Drawing, Dancing and Fencing are taught, if required, and form extra charges.

The Session is divided into Quarters, beginning respectively about the 25th of August, the 10th of November, the 1st of February, and the 18th of April.

Payments must be made quarterly, or semi-annually, in advance. No deduction for absence, except in cases of protracted sickness or dismissal.

### DIRECTIONS TO PARENTS.

The students must be provided with at least two summer and two winter suits; a sufficient number of shirts, handkerchiefs, socks, towels and napkins; a knife, fork and tumbler; combs, brushes, and other indispensable articles. All these can be had at the University, provided a sum sufficient to meet the expenses is placed in the hands of the Treasurer. The bed and bedding, when furnished by the parents, must consist of a mattress of six by two and a half feet, at least two pairs of sheets, two

double blankets, and a white counterpane; the bedsteads are invariably furnished by the Institution.

No student is allowed to keep money in his possession. The pocket-money must be deposited with the Treasurer, and it is the wish of the Faculty that no more than 15 or 25 cents per week be allowed to the students. When at the end of the session parents or guardians wish to have their children or wards sent home, they must give timely notice to the President, settle all accounts, and forward the necessary traveling expenses.

Parents who live at a distance should appoint an agent in St. Louis, or New Orleans, who shall be responsible for the regular payment of all expenses, and to whom the children may be directed on leaving the University.

Messrs. Thomas S. Elder & Co., New Orleans, who are regular agents of the University for Louisiana, Mexico, etc., will receive the payments and send on such children as shall be recommended to their care by parents or guardians.

All letters sent or received by students, unless to and from parents, are subject to the inspection of the President.

# PROSPECTUS

OF THE

## SAINT LOUIS UNIVERSITY,

SAINT LOUIS, MO.

---

THIS Literary Institution, situated in an agreeable and airy part of the City of St. Louis, was founded in 1829, by members of the Society of Jesus, was incorporated by an act of the State Legislature in 1832, under the name and style of the "ST. LOUIS UNIVERSITY," and empowered to confer degrees and academical honors in all the learned professions, and generally to have and "enjoy all the powers, rights and privileges exercised by literary institutions of the same rank." It has experienced uninterrupted prosperity, and has progressively improved so as to offer advantages not surpassed in the West. Both river and railroad facilities of communication render it easy of access at all seasons of the year.

The Institution possesses a valuable Museum, which contains a great variety of specimens both of nature and of art, collected from various quarters of the globe, especially from our own country; also a very beautiful and complete Philosophical and Chemical Apparatus. The library belonging to the Institution numbers over 14,000 volumes, embracing almost every branch of literature and science, and containing many rare and interesting works. The select libraries open to the students, form a collection of over 7,000 volumes.

## GENERAL REGULATIONS.

The Academic year consists of one session, beginning on the last Monday of August, and ending about the 4th of July, when the annual commencement, the conferring of degrees, and the distribution of premiums take place.

The session is divided into two terms, the first ending on the 22d of February, and the second about the 4th of July. A thorough examination of all the classes is made at the close of each term. Every month, the places or degrees of merit obtained by the student in the different classes are publicly proclaimed, and honors are awarded to such as have been most distinguished for good conduct, diligence and proficiency.

On the completion of the classical course, the degree of A. B. is conferred on all those who, on examination, are found deserving of that distinction. The degree of A. M. is given to the alumni who have devoted two years to some literary pursuit after having received the degree of A. B. Other Academical honors are granted to merit, and distinction in the learned professions.

No one will be admitted unless he bears a good moral character. Such as have left another institution will not be received without satisfactory testimonials. No one will be admitted for less than one session. No student will be admitted under the age of ten or above that of sixteen.

Reports are sent two or three times a year to the parents or guardians of the students, to inform them of their conduct, health and proficiency.

Thursday is the general recreation day. On the first Thursday of every month, the students whose parents or guardians live in the city or vicinity, are allowed to visit them.

During the eight days recess which begins on the 25th of December, all who can conveniently visit their parents are permitted to do so. No other absence is allowed during the course of the session.

An experienced physician daily visits the Institution. The greatest care and attention are bestowed on the sick.

The Professors are members of the Catholic Church; however, pupils of other denominations are admitted, provided they are willing, for the sake of order and uniformity, to attend the public exercises of religious worship.

Students in Chemistry and Natural Philosophy, for the use of the apparatus, pay \$10 per session.

Medicines and School Books are furnished, if parents desire it, at current prices.

Music, Drawing, Dancing and Fencing are taught, if required, and form extra charges.

The Session is divided into Quarters, beginning respectively about the 25th of August, the 10th of November, the 1st of February, and the 18th of April.

Payments must be made invariably quarterly or semi-annually in advance. No deduction will be made from a quarter commenced.

## DIRECTIONS TO PARENTS.

The students must be provided with at least two summer and two winter suits; a sufficient number of shirts, handkerchiefs, socks, towels and napkins; a knife, fork and tumbler; combs, brushes, and other indispensable articles. All these can be had at the University, provided a sum sufficient to meet the expenses is placed in the hands of the Treasurer. The bed and bedding, when furnished by the parents, must consist of a mattress of six by two and a half feet, at least two pairs of sheets, two double blankets, and a white counterpane; the bedsteads are invariably furnished by the Institution.

No student is allowed to keep money in his possession. The pocket-money must be deposited with the Treasurer, and it is the wish of the

Faculty that no more than 15 or 25 cents per week be allowed to the students. When, at the end of the session, parents or guardians wish to have their children or wards sent home, they must give timely notice to the President, settle all accounts, and forward the necessary traveling expenses.

Parents who live at a distance should appoint an agent in St. Louis, or New Orleans, who will be responsible for the regular payment of all expenses, and to whom the children may be directed on leaving the University.

Messrs. Thomas S. Elder & Co., New Orleans, who are regular agents of the University for Louisiana, Mexico, etc., will receive the payments and send on such children as shall be recommended to their care by parents and guardians.

All letters sent or received by students, unless to and from parents, are subject to the inspection of the President.
